GLOSSARY OF ABBREVIATIONS

Grant No. The grant number is composed of code letters and a number. The code letters represent the Institute or Division supporting the project. In the *Index* portion, Volume I, and in Appendices I and II of Volume II, projects (grants) are arranged alphabetically by Institute code letters and numerically within each Institute grouping. Code letters for the various Institutes and Divisions are as follows:

In Appendices I and III in Volume II the number of years in which a grant has been continued is shown as that part of the project number following a hyphen. Thus grant HE–09269–1 is a project in its first year of support, and HE–05670–4 is in its fourth year. The continuation years are omitted from the grant numbers listed in Volume I and from those in Appendix II, Volume II.

Contracts. Research contracts are identified by the appropriate Institute or Division code letters followed by a five or six digit number. The first two digits indicate the year in which the contract initially was awarded, the remaining digits following the hyphen being the contract identification number. In the *Index* portion and in Appendices I and II research contracts follow entries for grants for each Institute or Division.

Review Groups. Study Sections or Committees giving technical review to applications are abbreviated in Appendix I as shown below.

AFY—Applied Physiology
